

The Munich Center for Mathematical Philosophy has laid the cloth. You are invited to join us for the

Round Table^{#2} on Coherence

Fri., July 20th, 2012 – Ludwigstr. 31, Room 225

Recent arguments for probabilistic norms have attempted to justify coherence requirements for (sets of) degrees of confidence solely by appeal to considerations involving their accuracy.

Richard Pettigrew, Bristol, and Branden Fitelson, Rutgers, (and their collaborators) have worked extensively on various arguments of this sort.

This public MCMP event is to bring their differing approaches and perspectives to one table.

14:00h Coffee Table

14:30h Table of Contents

Key presentations on formal approaches to coherence: Richard Pettigrew (Bristol) and Branden Fitelson (Rutgers)

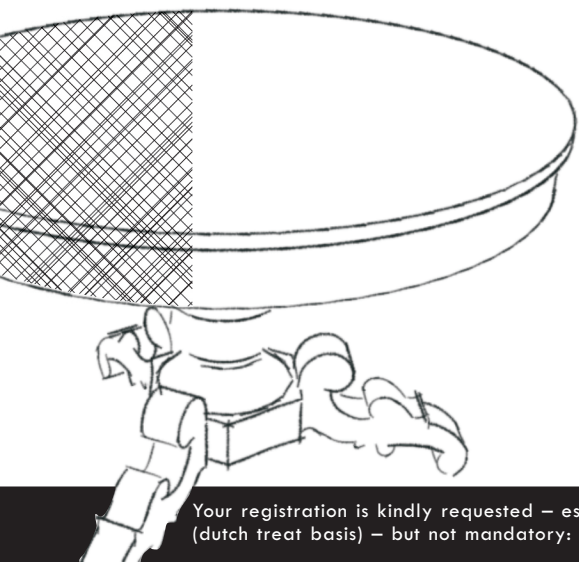

16:00h Refreshment Table

16:30h Truth Table

Richard Pettigrew and Branden Fitelson: Working discussion on philosophical approaches to coherence, differing perspectives, and formal/conceptual common grounds

18:30h Banquet Table

DELI Bar Lounge Kitchen, Brienner Str. 7

Your registration is kindly requested – especially for dinner (dutch treat basis) – but not mandatory: r.poellinger@lmu.de
